

PAINTLESS DENT REPAIR

What is PDR?

PDR is a professionally performed procedure used to remove minor dents and dings from the surface of your vehicle. The process takes only minutes to perform and can be completed at your convenience. Your vehicle's original finish remains intact, no bondo, fillers or repainting required.

DENT ARMOR®

Dent Armor® prepaid program entitles the purchaser to six PDR service requests for the 1 Year/Unlimited miles term or six PDR service requests per year (or 12,000 miles) for the 3 Year/36,000 mile, 4 Year/48,000 mile or 5 Year/60,000 mile term. The 90 Day Program entitles the recipient to one service request. An optional 12,000 additional miles is available on the 3, 4 and 5 year prepaid terms.

NO DEDUCTIBLE

There are no additional deductibles or fees to pay during the term of the program for qualified repairs. The repairs are performed by an authorized Dent Armor® technician.

WHAT CAN BE REPAIRED?

Paintless dent repair (PDR) is the preferred choice to remove door dings, shopping cart damage, and small dents without detection. Your vehicle will look "good as new."

A single service allows the agreement holder to have a maximum of two dents removed measuring up to a 4" in length/diameter each, that are repairable using PDR.

Dent Armor® includes repairs of minor dings and dents on the vertical panels (fenders, doors, quarter panels and rear lift gates) of a single registered vehicle. Larger dents, collision dents, paint damage and dents located on the hood, roof and decklid and not included as part of the Dent Armor® Prepaid Service (see "Terms and Conditions" on the Dent Armor® Prepaid Agreement).

It Works!

You will feel like the proud owner of a brand-new car. You can save hundreds of dollars compared to the cost of conventional body shop repair or multiple paintless dent repairs.
